

Rev. Georgia D. Thweatt-Johnson

As an ordained minister of Science of Mind, I continue to discover new enlightenments' and wisdom through the teachings of Dr. Earnest Holmes life affirming principles of Law & Love. I have been affiliated with Science of Mind since 1998 first as spectator, and student, and presently as minister, facilitator, teacher, and mentor to those seeking a clear understanding of God Presence within. As a retired Registered Nurse and Captain in the United State Army Nurse Corp, I have had the opportunity to blend my medical and military wisdom within my spiritual practice to support the client experiencing medical, social, or spiritual conflict. I am currently the minister of Congregational Care at Metropolitan Community Church of Richmond, my duties include providing life affirming prayer treatment , creating a spiritual environment that is safe and affirming , facilitating small discussion groups. I offer one on one prayer guidance as a certified Hospice caregiver, for home, and hospital visits. It remains my continued desire to be a catalyst to those seeking to learn about Science of Mind and the power living within them, to support them in their journey from victim to victor in all aspects of their being. I am available by appointment for spiritual support and prayer treatment.
